

# Telemangement Applications Industry 2002-04

Published by ERGOTECgroup. Daniel I. Stusser, Research Director and Principal Author

## Table of Contents

*Published July 2003*

Almost as funny as DILBERT®

Foreword

A little (true) story about sausage and market research

### Executive Summary

Markets: **Size and Growth 2001-2004**

Important new telemangement application:

Telecom Invoice Management

Marketing Trends and Issues

Product and Technology Trends

Investment Issues

Vendors in the Telemangement Industry

### Chapter 1 – Industry Overview

Executive summary of the report

Industry Statistics 1999-2002

Growth Status of Market Segments

Total Industry Revenues by Market

Total Industry Revenues by Platform

Transactions by Market and Platform

New Systems Revenues by Market

New System Sales Transactions by Market

Company Vs. Industry Revenues by Market

Revenues by Application, Year 2001

Call Accounting

PBX Administration

Facilities Management

Cable Management

Directory

Invoice Management

Network Usage Management

Enhanced 9-1-1

Canada Telemangement Applications Industry:

Market Notes

### Chapter 2 -- Market Statistics 1999-2002

Special Note about Government Enterprises

2A – **Enterprise** Telemangement

Revenues by Platform

Company-Level Software Revenues

Industry-Level Software Revenues

New Software Sales by Application, 2001

Number of Sales Transactions

Average Dollars per Sale

Concentration of Unit Sales

Software Maintenance Revenues

2B – **General Business**

Revenues by Platform

Company-Level Software Revenues

Industry-Level Software Revenues

New Software Sales by Application, 2001

Number of Sales Transactions

Average Dollars per Sale

Concentration of Unit Sales

Software Maintenance Revenues

2C – **College and University**

Revenues by Platform

Company-Level Software Revenues

Industry-Level Software Revenues

New Software Sales by Application, 2001

Number of Sales Transactions

Average Dollars per Sale

Concentration of Unit Sales

Software Maintenance Revenues

2D – **Hotel**

Revenues by Platform

Software

Stand-Alone Systems

Company-Level Revenues

Industry Revenues

Number of Sales Transactions

Average Dollars per Software Sale

Software Packages Sold vs. Price

Average Dollars: Stand-Alone Systems

Software: Concentration of Unit Sales

Software Maintenance Revenues

### **Chapter 3 -- Platform Statistics**

#### A – Software

- Software Sales by Market
  - Company Revenues
  - Industry Revenues
  - Unit Sales

#### B – Applications Services

- Revenues by Market
- Number of Customers
- Revenues by Market and Vendor Tier
  - Enterprise
  - General Business
  - College

#### C – Stand-Alone Call Accounting Systems

- Unit Sales
- Company Revenues
- Industry Revenues

#### D – Specialized Hardware for Telemanagement

- Industry Totals
  - Company Revenues
  - Industry Revenues
  - Unit Sales

### **Chapter 4 -- Marketing Trends and Issues**

Issues For Today And The Future

Old Markets, New Markets

Call Accounting: A Possible “Quantum Shift”

Reasons To Use Call Accounting Have Shifted –  
and Stayed The Same

Convergence Has Come In Stages

Three Major Product Perspectives of Vendors

Competition

PBX Vendors

Marketing Using The Internet

Marketing Tricks

*Mini-Report:*

- Prison Inmate Call Processing and Call Accounting

### **Chapter 5 -- Product and Technology Trends**

People vs. Machine Communication

How the Internet Has Changed Product Delivery

Service Bureau vs. ASP

Operating Systems vs Internet Technologies

VoIP SMDR

IPDR, Anybody?

Specialized Telemanagement Hardware

Service Provisioning – The Future?

*Mini-Report:*

- E-911 Service Enhancements

*Mini Report:*

- Invoice Management Services and Software

### **Chapter 6 -- Investment Issues**

Mergers & Acquisitions 1999 to June 2003

Failed Merger Transactions

Not a Single Industry: SIC Codes Are Useless

Consolidation in the Industry?

Why Don't the PBX Manufacturers

- Own This Industry?

Venture Capital

- in Telemanagement Applications Industry

Three Bankruptcies

Public Firms in the Telemanagement Space

Wealth Creation in the Telemanagement Space

Patent Issues

### **Chapter 7 -- Vendor Profiles**

Web site links (*available online to subscribers*)

New Entrants to TAI: 1999-2003

Names Changed Since 1999

Comparative Lists of Vendors

**Profiles:**

911 Enhanced Telecom Corp.

A&A Teledata

ACE\*COMM

Active Telemanagement, Inc.

AgilQuest Corporation

Ajendi Technologies Inc.

Amcom Software, Inc.

Amtel Technologies

Amtelco 1Call Division

Apogee Networks

Aristonics Corporation

Asset Sentinel, Inc.

AT&T College & University Solutions

Atcomm

Audit-Tel

Avotus Corporation

Bitek, Inc.

Bristol Capital Inc.

Broad:Margin

## Telemanagement Applications Industry 2002-04

336 pages. 136 vendor profiles. Industry revenue projections through 2004.  
Detailed unit sales and revenues by market, platform, and application for 1999-2002.  
Analysis of product, technology and marketing trends Investment and risk issues

Available immediately. Price: U.S. \$4,200. Additional copies are available for \$400. To order, fax purchase order to +1 360 357-7049 or call +1 360 357-1000 Or, email [stusser@ErgotecGroup.com](mailto:stusser@ErgotecGroup.com)

### About **ERGOTECgroup**

Established in 1984 by Daniel I. Stusser, its president and research director, ErgotecGroup is the leading source of information and analysis about telecommunications management applications -- systems, software and services.

We provide planning, marketing, and market research services to telecom manufacturers, software developers, service providers, and distributors.

#### Services Include:

**Telemanagement Industry Overview Meetings** ■ Private consultations regarding telemanagement applications markets: supplier companies, their products and services; trends in the industry; strategy alternatives; product positioning; and distribution approaches.

**Mergers and Acquisitions Assistance** ■ As the telemanagement industry matures we assist firms to search out partners, perform background research, negotiate agreements, and secure financing. Clients have included both buyers and sellers.

**Investor Evaluations** ■ We perform evaluations of opportunities in the telecom management software industry and the strengths and weaknesses of specific business plans. We evaluate companies in the telecom management software industry as merger or acquisition candidates.

**Market Research** ■ We gather and assess original qualitative and quantitative market and customer data on niche markets. Where appropriate, we conduct focus group interviews, one-on-one on-site interviews, telephone surveys, and mail questionnaire programs. Whenever possible, we also make use of secondary materials.

**Sales and Distribution Strategies** ■ Pricing, marketing, and selling plans sometimes benefit from our independent point of view. We provide tactical marketing communications services to support these strategies. Projects include writing sales brochures, training aids, user manuals, press releases and trade journal articles, and direct mail campaigns.

**Name and Corporate Identity Development** ■ Establishing the right name can affect the speed and success with which a new entrant penetrates a market. Our clients have depended on our services in creating names and images for products, distinctive capabilities, and corporations, including trademark research, foreign language checking, graphic design, and more.

**Company and Product Positioning** ■ We assist clients to match their strengths to emerging market requirements to develop strategies. We assist our clients to identify the functional strengths of their products and the organizational strengths of their companies and to position their products and services in the marketplace.

**ERGOTECgroup** 314 Capitol Way North, Suite 200 Olympia, WA 98501 USA +1 360 357-1000
